Trace Minerals:

Small but mighty! Trace minerals support hydration, energy production, immune function, and nutrient absorption. Just a few drops a day can help restore balance and boost overall wellness from the inside out.

Block Blue Light:

Protect your eyes and optimize your sleep! Block Blue Light glasses and lighting filter harmful blue light from screens and LEDs—reducing eye strain, improving focus, and supporting natural melatonin production for better rest.

Mark your calendar—Every 2nd Thursday of the month is **Super Thursday** at Active Edge, both in-office and online!

*Enjoy 20% off all Boost Market supplements and products as part of this monthly wellness celebration. *Please note: Essential oils, diffusers, and massage devices are excluded.*
